

# New Office 365 applications

Microsoft has released a couple of new applications in their [Office 365 Education](#) package. Metropolia students and staff members may start to use them right away.

The apps are:

[Delve](#) - a dashboard application

[Onenote Class Notebook](#) - an e-learning service

[Sway](#) - a new presentation software supporting interactive communication and richer visualization

[Video](#) - a video platform which only allows video sharing inside Metropolia

## More information

[Portal of the cloud services Metropolia provides for students and staff members.](#)

On the subpages, you may find information on deployment of the cloud services, links to the applications and their info pages, and guides, including videos.
