

# IT Services removes remote desktops that are rarely used

Rarely used and old degree program specific remote desktops (virtual computers on VMware Horizon platform) will be removed on February 22, 2019.

Android, Android-HomeUsage  
BI, BI-HomeUsage  
Bulevardi  
Media  
Maanmittaus, Maanmittaus-HomeUsage  
Olio  
Sote  
Symbian, Symbian-HomeUsage

New degree program specific remote desktops will be created as needed by instruction. The users of a given remote desktop must appoint a main user for the desktop. Requests to create new remote desktops or to change existing remote desktops should always come from a main user.
