

# Quick guide — Printing from USB flash drive

## Printing from USB flash drive

1. Insert USB storage drive into **USB interface**.
2. **Login to Canon MFP** with your user ID or an RFID card associated with your user ID.
3. On the PaperCut interface, press **Access Device**.
4. From touch screen choose **Access Stored Files** button and choose **Memory Media**.
5. Choose folder where the file is located and press **OPEN** or choose the file.
6. Press **Start**.
7. After printing, to remove the USB storage drive **press the symbol** located on the right corner of screen.

## USB flash drive File Format and Safe Removal

1. USB flash drive is formatted as **FAT**.
2. The file you are about to print is saved as **PDF**.
3. Safe removal of USB flash drive is done by pressing the symbol in touch screen.
