

# Extend Timeout Period

Timeout length or the time you can be logged in to a multifunction printer, is by default **2 minutes**. You can extend the period, if you are copying or scanning large amounts of material.

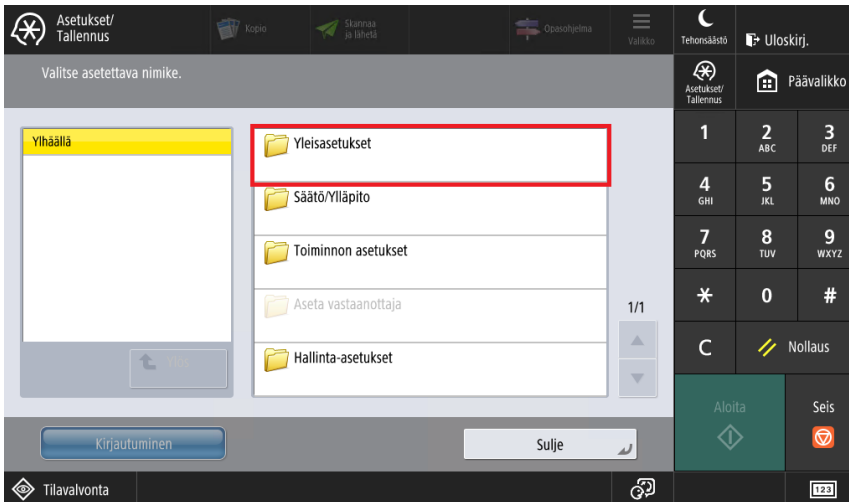

1. **Log in** with your card or user ID
2. Select **Access Device**

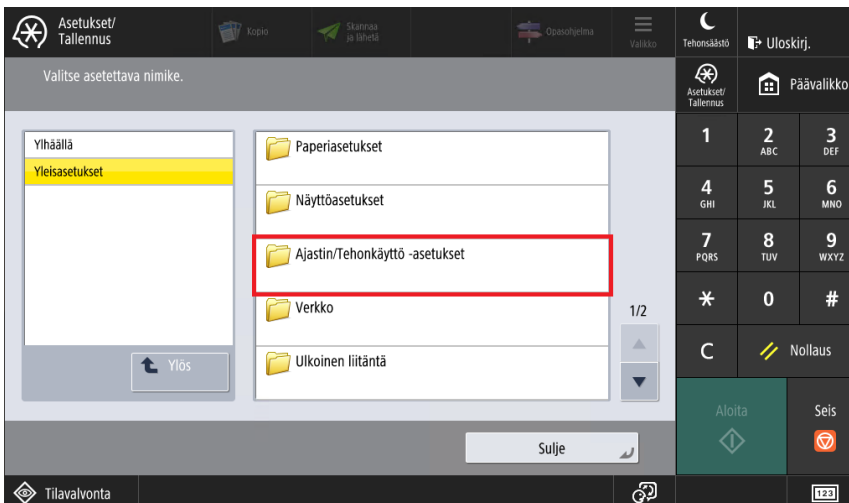

3. Select **Asetukset/Tallennus**

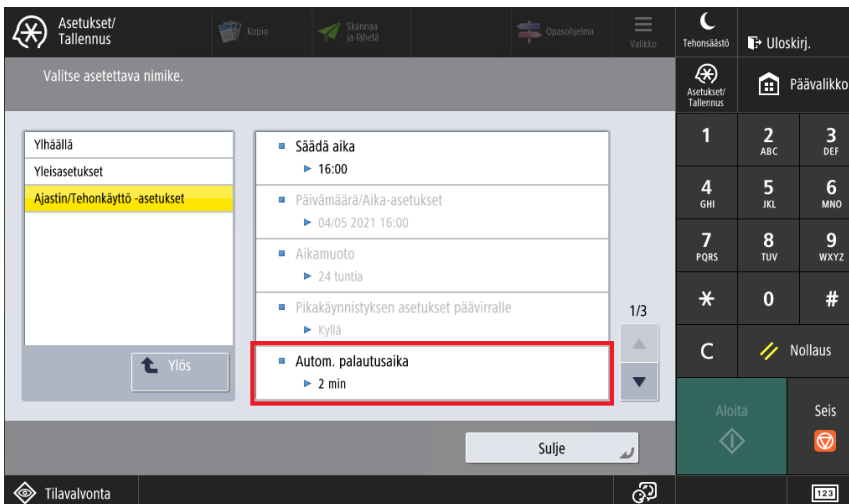

4. Select **Yleisasetukset**

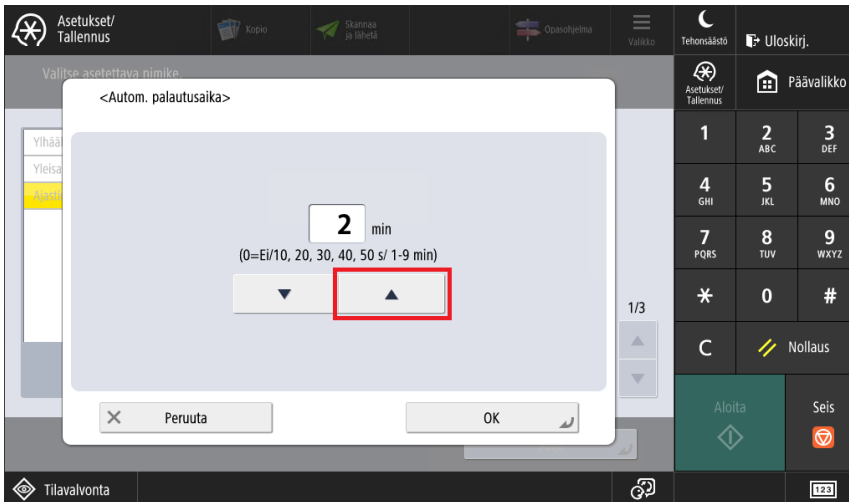

##### 5. Select **Ajastin/Tehonkäyttö** -asetukset

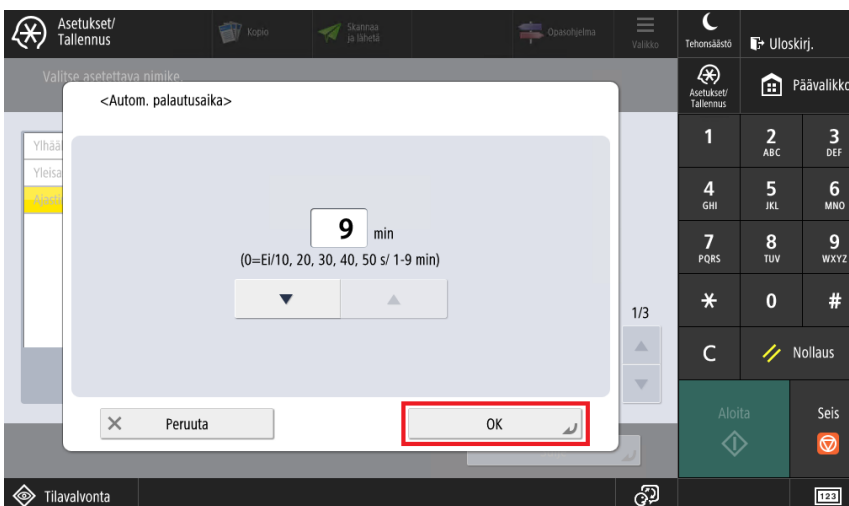

##### 6. Select **Automaattinen palautusaika**

##### 7. Set the time with **arrow keys** for your preference (max. 9 minutes)

8. End with **OK**

9. By pressing **Päävalikko** button you get to main menu.
